

WE MANUFACTURE

- Water tanks (suitable for transporting drinking water)
- Foam tanks
- Fuel tanks (petrol, oil)
- other chemicals

ZHT tanks are made from polypropylene or polyethylene and their co-polymers and are fabricated by a welding process. Depending on our customer's needs we offer tanks of different sizes with various partitions, multiple inlets and outlets with threaded or flange fittings and with or without man access.

BENEFITS OF PLASTIC TANKS

- ① LIGHTWEIGHT
- ② CHEMICAL RESISTANCE
- ③ CERTIFICATION FOR THE TRANSPORT OF DRINKING WATER
- ④ LONG LIFE EXPECTANCY
- ⑤ VARIATIONS OF SIZE AND SHAPE
- ⑥ LOW MAINTANANCE

**WATER, FOAM, DIESEL
AND CHEMICAL TANKS**
